

Our Environmental Policy

QuadWinkowski runs its business activities based on balanced development policy principle, which assumes voluntary and properly formed relations between economic growth, environmental care and human health.

The Board of QuadWinkowski is aware of the influence of company activities on the environment. We act in an environmentally friendly way and realize processes that aim to improve methods of preventing negative effects on the environment. One of the elements of our company strategy is maintenance and constant improvement of our Environmental Management System according to ISO 14001:2004. We will improve our Environmental Management System and follow the progress of science and technology and implement their achievements in our business activities.

We commit ourselves to obey legal requirements and other environmental regulations which take effect in our activities. In our actions that aim for environment protection we prevent rise of pollution during production processes.

Aiming at realization of this policy we maintain the following strategic goals:

- Proper waste management
- Minimizing the amount of contamination emitted into the air
- Rationalizing material use for production
- Preventing environmental breakdowns due to constant monitoring of equipment and installations

We realize environmental policy of the company particularly by:

- Using in production materials and technologies that are proven to be safe for people and the environment
- Actions aiming at the protection of natural resources by limiting consumption of paper, energy, fuels
- Improvement of technological processes and equipment modernizations that aim at minimizing damaging influence on the environment.

We promote and systematically deliver to our employees information regarding environment protection, which motivates them to act ecologically. In these processes we also include our contracted delivery service providers and business partners. The management of the company is actively engaged in realization of strategic environmental goals and monitors level of fulfillment. This Environmental Policy is known and practiced by all employees of QuadWinkowski.

Tom Frankowski, President
